ACADEMIC SECTION

- Suppose a student wishes to opt for a minor specialization in any stream, he/she needs to give the SAME PREFERENCE NUMBER to the courses offered under that specialization in BOTH ELECTIVE GROUPS (PE-I and PE-II).
- The student opting for a particular MINOR SPECIALIZATION in the VI semester is expected to continue with the minor elective subjects in the VII semester, and he/she must undertake a mini project (additional 8 credits) in the area of selected specialisation.
- Without the completion of the mini project student will not be awarded the minor specialisation title.

IMPORTANT NOTE:

- The allotment of program / open elective courses is subject to the fulfillment of minimum strength in each course.
- Allotment is decided by CGPA secured by them up to the end of the previous academic year.
- There is no scope for change of electives once allotted.
- The class timings for Inter Institute Open Elective courses (with course codes IIE****) may be as per MIT timings or based on the time slots given by the course handling institute.

Note: If any student fails to fill the elective preference, Elective subjects offered by the department will be allotted based on availability.
